

Opportunities to develop skills and launch future pathways

Business Academy Program

Craigieburn Secondary College is launching a Business Academy program that allows students to develop their 21st century skills and prepare them for the workforce. The students will be partnered with a mentor and learn from them in the workplace.

Partnering with the Business Academy

Future work ready employees

You will have access to students who are eager to work with you and improve their skills. This will provide you access to industry trained staff for the future.

Mentoring opportunities

By sharing your business journey with students and guiding them in the workplace, you will inspire them to succeed in the future.

Community impact

By supporting the future generation of talent in the Hume area, your business will be giving back to the community and supporting students to succeed.

Focussing on 21st century skills and capabilities

- Self Awareness
- Communication
- Problem Solving
- Leadership
- Feedback
- Teamwork
- Conflict Resolution

Involvement in this partnership with us can involve as much or as little input as you are able to provide - we're flexible. It may include coming to our school to share your business journey with students, hosting one of our students for a work placement every Friday during the school term and/or allowing us to visit your workplace to learn more about their business operations and industry.
